

**CREAMERY TO OPEN
IN DEMING TUESDAY**

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Deming, N. M., Nov. 27.—The Miners Valley creamery will open up here next Tuesday. All the latest butter-making equipment has been installed and tested under the supervision of W. P. Plumleigh, the manager, who announced that he is ready for business on a big scale as soon as sufficient milk has been received.

The management announces that cream will be received Tuesdays and Fridays of each week up to 2 o'clock in the afternoon.

There are about three hundred cows pledged to the creamery at the present time. Quite a number of dairy cattle have been shipped, since the canvass was made. The factory must have about five hundred cows to it can run full force. The manager says that he expects to turn out about 800 pounds of butter a week under the present conditions. This amount can be readily absorbed in the local market. There is no doubt of the fact that the factory is equipped in a first-class manner to turn out the best butter, and of the determination of the management to build up a reputation that will make Deming butter sought after in the southwest. The creamery will go after the outside trade just as soon as it can produce the volume of product.

CHICAGO BOARD OF TRADE

Chicago, Nov. 27.—Congestion of railroad facilities for exports appeared to be chiefly responsible for the disappearance of an early advance that took place today in the price of wheat. The market closed weak at the same as yesterday's finish to 4¢ lower, with December \$1.02 1/2 and May \$1.06 1/2. Corn underwent a setback of 1¢ to 1¢ 1/2 and oats of 3¢ to 4¢. The final range in provisions extended from 7 1/2¢ decline to a rise of 1¢.

It was not until news came of an embargo having been put on export shipments of grain from Buffalo by way of Baltimore that the bulls lost control of the wheat market. Bearish sentiment was given further impetus in this session as a result of a view that in nine days New York, which had faced with a long freight cars as far back as Scranton, had also informed agents to refuse for the present all business destined for Europe. The consequent downward swing left the market in the end at nearly the lowest level of the season.

Corn was bearish even more than wheat by the embargo at Baltimore, oats was relatively steady in consequence of free buying of December options here against export sales at the seaboard.

Provisions made a strong start and went up.

Banks Report Increased Business Activity and Reserves Decrease About \$10,000,000; Some Loan Expansion

SPECIAL CORRESPONDENCE TO MORNING JOURNAL

New York, Nov. 27.—Today's brief session of the stock market represented little more than the caprices of the professional element. Dealers amounted to only 224,000 shares, which metal issues contributed an unusually large proportion.

There were tentative gains of one to three points in the usual variety of war and semi-war descriptions, these being offset by irregularities in copper and petroleum.

Shares of the investment class were dull.

Trading in United States Steel was moderately light, the stock recording a small fractional loss.

Local bank reserves contracted by a little over \$10,000,000 with a cash deposit of about \$10,000,000 and a nominal increase in loans. Banks report an increased business activity.

Bonds were firm with small trading. Total sales, par value, amounted to \$2,728,000.

United States regular 2% advanced 1/4 cent and the regular 4% declined 1/4 cent on call during the week.
